

EPR/TMS-Lab Information Sharing 2-2-12 Action Items

What is the tradeoff for decreasing the turn-around times for data packages down to 30-45 days?

Mark

Include ESAT samples in current request for lab supplies. **Mark**

Revise left hand column of Laboratory Sample Summary table to reflect programs served. For example, "Clean Water Act" is predominantly state/tribal pesticides. **Mark**

Revisit resource base and requirements for R8 Lab. Share strategic staffing plan for the lab.
Deb/Mark

Provide project list (site name, site ID and charging) to Russ. **Mark**

Provide Pavillion account code to Mark. **Russ**

Have lab staff working on Pavillion charge to Pavillion site. **Mark**

Complete QC on accounting for superfund charging. **Russ to work with Martha**

Share bumping right language with all meeting participants via e-mail. **Mark**

Single point of contact for ESAT supplies **Tony to provide name to Art**

Set up next information sharing/follow-up meeting **Deb set up for late March**

Agenda items for next meeting

Report out on action items from 2-2-12 meeting

Explore how we will meet region's highest analytical/field priorities with diminishing resources (R8 lab, ESAT, CLP). **All come prepared to discuss**

Begin discussion on possibility of moving some ESAT functions to the lab. **EPR lead**

Report out on site specific charging at lab. **Russ**
